Book 1: The Business in Bermuda

Amanda Greenslade

When an eight-year-old Australian girl, named Myra, finds a shining yellow motorcycle in the shed, she doesn't expect it to actually work. It has strange buttons on the display and something like an eyebrow on the headlight. There is a key in the ignition!

Along with her pet bird, Diver, Myra finds herself on an exciting adventure across the other side of the Earth. The magic motorcycle takes her to new places and she is able to meet some people who really need her help.

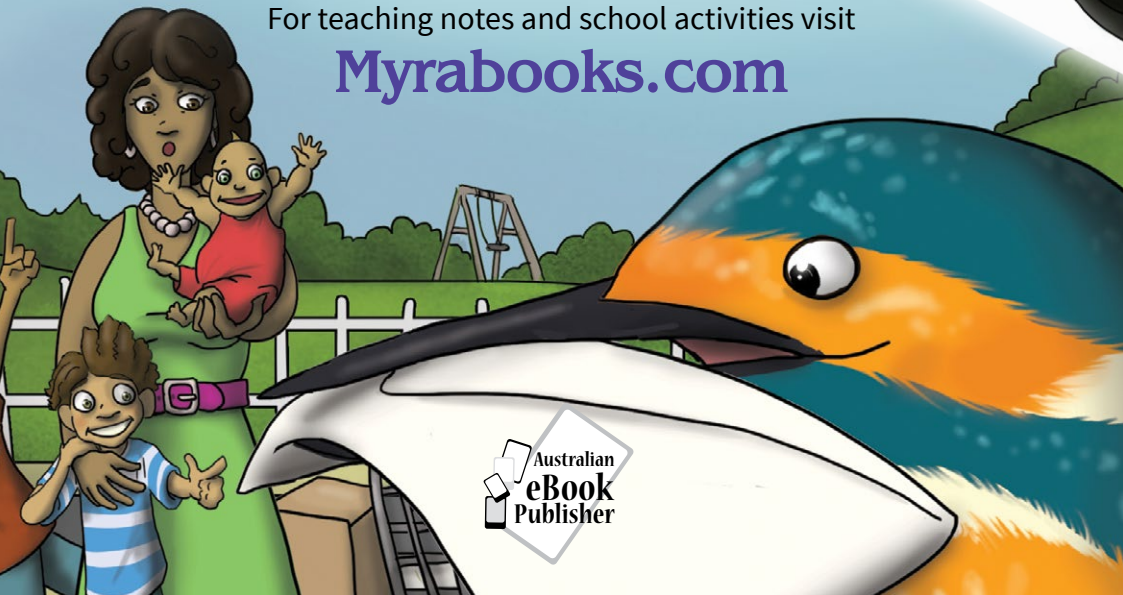

Turn the key and rev the throttle. You're about to go on the adventure of a lifetime with *Myra and the Magic Motorcycle*.

A full colour social studies book
for kids aged 5+
